

Accounting Software for the Public Sector

The Functionality You Need Provided by People You Can Trust

The VIP Accounting system provides the data you need for critical accounting management decision-making. It is the core of the Visual Intelligence Portfolio® and is relied upon by customers with budgets both large and small.

General Ledger

Accounts Payable

Dashboards

Purchasing workflows

Accounts Receivable

Project/Grant Management

Budget Management

Invoice Workflows

Asset Management

Flexible Reporting

"The user interface is very user-friendly. The "grid" layout is consistent between different functions, making it very easy to get used to navigating the system. The software is also tuned very well for government fund accounting."

**-Matthew B., Finance Director
City of Rittman, OH**
